

# A Story of Quality

"As a design firm it is important to us that the contractors we interface with on our projects meet certain standards. We look for a company that allows for free communication throughout the project, quality construction and a company that stands by their product. DeKreek Construction has consistently proven to be a contractor that lives up to these standards."

Sue Patterson, ardINTERIORS, Inc.

**Doesn't your next commercial construction project deserve this kind of care and attention?**
