Todd and Sandy DeKreek began their construction careers in 1992 working for a general contracting company in Sacramento. Todd's background in project management and Sandy's experience in contract administration, accounting and project management made them the perfect team to start Folsom-based DeKreek Construction Inc.

DeKreek Construction specializes in commercial tenant-improvement construction in the Capital Region for office space, light industrial and medical-dental offices.

"We don't want to be the largest tenant-improvement contractor in the area — that is not our objective. Maintaining our reputation for delivering high-quality general contracting services to our clients is our main goal," says Todd DeKreek, president of DeKreek Construction Inc.

DeKreek achieves this through good communication, integrity, teamwork and the ability and willingness to solve problems promptly and efficiently.

Their client base is located in Sacramento, Roseville, Rocklin, Folsom and El Dorado Hills, and includes Jones Lang LaSalle, Financial Title Company, KDA Holdings Inc., Gallaway Commercial Inc., Cemo Commercial Inc. and RAM Companies.

"Our projects can vary from relocating a wall to a complete build-out of 60,000 square feet," says Todd DeKreek.

DeKreek Construction has recently completed tenant improvements for the Associated Press, Bloodgood Sharp Buster Architects, Placer Community Credit Union, the Sutter Visiting Nurse Association, the Prosthodontic Dental Group and Generations, a Professional Law Corporation, just to name a few.

The DeKreeks have 13 years experience in general contracting and project management.

"We enjoy what we do. It is very rewarding to see our clients satisfied with the finished product," Todd DeKreek says. "Every project is an important one. Each job is different and presents new challenges."
